Because we believe...

## WHO WE ARE

At CDSEI, we believe in boundless potential of human spirit. However, we also understand that most people will NEVER achieve this potential because they lack a “kick-start” a first launch, a head start, a catalyst, that first step, that initial push, that first beginning that would propel them out of the shadows of constricting circumstance.

We empower and promote a new generation of entrepreneurs by providing the skills and knowledge needed for business and individual development, thereby contributing to national development.
